

SUCCESS in ACTION

The TEQUATIC™ PLUS Filter

OPERATES WHERE OTHER FILTERS TYPICALLY FAIL

- Filters down to 15 microns
- Handles TSS from 100-10,000+ mg/L
- Up to or >99% water recovery Higher uptime
- Low maintenance
- Low consumables
- No to low fouling disposal (from discarded filters).
- No chemicals or backwashes
- Compact footprint

A BREAKTHROUGH technology that helps turn nasty, high-solids water into high-quality filtrate

Reduced turbidity up to
70%
and at half the cost of
Dissolved Air Flotation.

Bear Valley Water District
Secondary Wastewater

Reduced bag filter
changes by
80%
and helped avoid additional
capital expenses.

Meat Processing Plant
Industrial Wastewater

Outperformed other
technologies while retaining
99.5%
water recovery.

Oil & Gas Exploration Co.
Produced Water

Outperformed other
technologies while retaining
50%
water recovery.

Oil & Gas Exploration Co.
Produced Water

Increased recycled
produced water to
100%
reliably and consistently with
minimal maintenance.

Oilfield Water
Infrastructure Provider

Delivered stable filtrate
to ultrafiltration with
Zero
fouling and backwash.

Sewer Authority
Wastewater Treatment
